

Vacuum controller VPR 21

ZÁK. ČÍSLO: 2541 00 0000

The VPR 21 Vacuum Controller with Pirani Gauge is a prestigious solution for vacuum process measurement, control and monitoring of vacuum pressure range from 10^{-2} Pa to 10^5 Pa. The controller can control two gauges and provides latest digital communication interfaces (USB, WiFi, Ethernet). VPR 21 offers advanced features, user-friendly operation, and reliable performance, making it ideal solution for scientific, industrial, and research purposes.

Datasheet

Technické údaje

-
- Complete solution for vacuum monitoring and control
-
- Two measuring channels (Gauge Pirani VPR 21/20)
-
- TFT touch display with 5-inch size and 800x480 pixels resolution
-
- Simple and intuitive menu
-
- Switch-points: programmable to switch at a pressure
-
- Pressure graph view
-
- High resolution - 16 bit A/D converter
-
- Data logging with USB port, Ethernet or WiFi
-
- USB, IEEE 802.11b/g/n (2.4 GHz WiFi) and 10/100 Ethernet interface
-
- Power Supply: 100-240 VAC, 50/60Hz, 1.0 A max.
-
- Dimensions: 168mm x 164mm x 119mm
